EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Sabourin (Reg. No. 35,344) on August 31, 2004.

The application has been amended as follows:

IN THE CLAIMS:

Claim 5 has been canceled.

In claim 8, line 2, the phrase "substrate inverter system comprises at least one arm that" was deleted and replaced with --at least one of the leading and lagging arms--.

In claim 14, line 5, the phrase --by holding headers of the substrates with a leading arm and guiding the headers over the arcuate transfer path; and holding trailing edges of the substrates with a lagging arm and guiding the trailing edges over the arcuate transfer path-- was inserted after "path".

In claim 14, lines 6-9, the phrase "by holding headers of the substrates with a leading arm and guiding the headers over the arcuate transfer path; and holding trailing edges of the substrates with a lagging arm and guiding the trailing edges over the arcuate transfer path" was deleted.

The above changes to the claims were made to clear up several minor informalities in the claims. In particular, claim 5 was canceled since it was a double recitation of subject matter added to claim 1. Claim 8 was amended to use more clear language since a leading and lagging arm was previously recited. Finally, claim 14 was amended to insure it is clear that the movement of the leading and lagging arms over the arcuate transfer path is part of the inverting step and not part of the conveying step.

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone number is **(571) 272-2161**. The examiner can normally be reached on M-Th 7:30 am-6:00 pm.
